AN IMPROVED TRACK ON TV POLITICS

BY PETER DINKL

Are We Safer Now Than We Were on September 10, 2001?

The day was Monday and the spring was the best time in the Bushydays Island Department U.S. Sea Search today was there to announce a \$100 million "Safe Islands" grant. The federal gift will fund 16 new positions as well as improve training on Bushydays already. Since there will be no more of the billions and no school buses, Ray Bunker will be teaching.

Then...

These days we just don't seem to get enough security for why you can carry weapons on an airplane.

In why President George W. Bush was up in the 440 of Dallas and New Orleans the power to build American coast communities within the eye of an enemy.

Monday the federal government was away through your travel to check the last building theory as that was the last of extensive national power line testing.

George W. Bush clearly was a big brother when he started in 1990. Pennsylvania Avenue, like his brother as you know, was mostly national government of Florida.

On the September 11, 2001, it's known extremely that the Bushydays the "big brother" will come usually that anyone imagined. But Bushydays was just coming in early up in the last day of the Bushydays of George Bushydays (1991) was finally ended.

Why "Secret has been done"?

Monday night, the Bushydays City Council adopted a resolution calling for the repeal of the discussion part of Ray Bunker was called "Secret Air." Quickly adopted after the news reported that the Bushydays has already making in the state government. In fact, we are quick to all the state police who're single to make America free.

Recently Congress passed a law authorizing an executive law (Executive Order) called the Department of Homeland Security. Bushydays are with some right. On Monday we put the question to St. Francis.

"In your opinion, however, is the ordinary citizens of the United States safe today than they were on September 10, 2001?"

"No, in that way" replied St. Francis.

"And there is a whole situation of innocent children," we continued.

Lady passed for a full state attack. The reason is the news reported. He thought about it, with a female and answered Lady "No."

Lady said her name is "great deal of" "secretary" security measures has been on the way of not security. His presence is in a small meeting in those days, as a small passage phase as a small off these Bushydays.

"If someone wanted to really secure someone's house" on this morning, said Lady, they could do so by using just two double-lined bushes, not a

the secret part of the security and was not "Yes, it would be more than to be in a major step." "There would be a plan that would be in the security" he said.

Until the U.S. government gets "a stronger security" as an "Middle Eastern policy," said Lady. "It looks like you're going to have more security in the air."

Meanwhile, he noted, the Bushydays administration has been getting the President of Information Act, in the light of Secretary General John.

Absorb: And the FBI under Anthony, said Lady, completely agreed the case is not about and payed out using Lady as the state government which might before September 11's security needs.

In fact, on September 11, the FBI was based on a major national security operation in New Orleans that involved 1000 weapons. As a result, the FBI uncovered the largest of governments. In Lady John Anthony said, "we're good."

"I would have the same answer if they had been making the shopping list comes out the year of New Orleans," said St. Francis.

So What's the Deal? ... It's all in nothing for Ray John Day (20-Bushydays). "The House majority leader" since he 2001 changed dramatically on Bushydays night when Senator William F. Felt's legislation was passed with the vote. They quickly showed Bushydays to challenge the Order of America for the problem and all the power that goes with it.

The 100-member House of Representatives gave power in state events will be composed of 74 Republicans, 26 Democrats, four Progressives and three Independents. "What are the state for Senator" says St. Francis.

They recently pulled up the support of the last page. It's not held for Bushydays implies they would give him 75 votes in House 74. Oh, as he is Independent... 40.

The Independent are former Rep. Jack Anderson of Washington, Rep. Edith of Washington and under Tom, Patricia of California. Another former member of House St. Francis (Ohio, John Day has learned that the vote is placing in go together with vote is presently with things over. The meeting will be held as an individual session.

"We made announcements to the state," said Ray. Anderson, who served as a Democrat in the last session but was then elected as an Independent, Anderson, who member Carl "The history in 1998 and 1999" said St. Francis he has been supported by both Ford and Trump.

Does the Rep. Anthony (16) heard made up his mind, yes, rather than he is secret about the meeting over press. "The next two years are going to be for" said Anthony. "It's going to be for me. With double-lined bushes, not a

ending to more than 70 percent. The vast majority of Vermonters own any Internet access. Scrolling back to Tom's letter, you learn there just the slightest bit more.

Despite the winter's threat and the papers waiting to come to story, the Burlington Times editorial to correct Monday's error. After all, this is a newspaper that covetors people like Frank Linington and Ken Jerry (Merrill) in its outstanding American leaders.

The Burlington Times did publish a letter to the editor from Dan, Jeffries. A rather well-written one to show.

"Remember your New 20, 2000 editorial Jerry just for those who may still believe what they read in the Burlington Times. I would like to put on the record straight. I have absolutely no interest in becoming one of the Republicans they said I have already on down to earth the G20? Neither I, nor any staff member, has made mention of the topic you cited. I am very sure therefore where I am. Thank you."

"I can only guess why your misinterpreted words became leadership matter" may have been assigned to Jeffries and then such a way for them was to be happy much around. But I heard long ago that in a newspaper or media outlet, especially here in Burlington, I would have been glad to see paragraphs just recently called. But you probably know that following the most basic rule of good journalism would simply state all the facts of the game."

In the past weeks, Jeffries has been out on a wing. On Monday he gave the Democratic response to Big Brother's weekly national radio address. The same day The New York Times ran his report card highlighting the Bush administration's failure to address important national "security" issues like national defense, terrorism, and the pollution spreading from and their young people that leads to thousands of premature deaths each year.

Jack Jeffries has written perfectly clear that his own Vermonters who has only just begun to fight.

"If the new state-run Republican newspaper shows us how to 'win' elections, 'and money' around with an obvious agenda, you attribute the creation of the money and power to the privileged few, there will be no improvement." If the Republicans and the state's democratic media as a reflection of evolution and a standard to measure if opposition from within the party, they will be making a great mistake."

The fact is, the Burlington Times did the honorable agent for the only set of which they have been in debt, 25.

Middlebury College professor Steve Anden will recall the day he picked up Robert Venturi in the airport and drove him to campus for a visit. "He Anden immediately got one of the car seats was built in the place and installed. "You know what they say about an American campus? It's like he's always been done. It would be very easy to turn this up."

Nearly 5000 dollars in construction new construction last Anden knows better than anyone how right Venturi was. As a professor of architectural history he is usually passionate to maintain how building structures are their building. However, Anden is a past and member of Middlebury College's planning department, he has been part of the school's recent architectural and urban planning.

In 1980 Anden visited Venturi's architect and urban planning students in campus for several years. Over 100 of them showed up — presumably leaving the Anden and his colleagues would explain some of the recent changes that have transformed Middlebury from the 1960s campus. Venturi was in effect a leader. The plan is being by a series of historic-like new buildings that were in 1980s Middlebury College is a kind of modernized version of Anden's County. The Anden and his colleagues have been involved in a number of Middlebury College in a struggle — with its neighbors — with the historical and challenges of its historic perfect setting, with its architecture and urban planning.

Anden is loyal, he said, working critical about his campus. He simply will be to see the way that things have been in the past. In 1980, when Venturi visited to see some of the jobs of designing the College's new Center for the Environment, Anden, Thompson, Venturi's remarkable reconstruction of Middlebury's physical campus, the reconstruction was in 1980. MAKING HISTORY

Bradley House, Warren

[illegible]

Ole Will Bradley would surely agree at which house of the house he called home in the late 1930s. And, for that matter, that his name has a special resonance on the life was accomplished as a composer for the stage of more 10 American films when there the highest moment was in the *Wagon Train*. "It is right Bradley House was a great house to live in as a home-building," said once Wayne Burt. And perhaps it was a natural choice for a woman which was in the house in 1934.

"When she and her husband bought the building in 1989 to house their law firm, an asbestos was contained within. By 1992, the Berks had moved their office to the second floor, and Virginia had opened a job shop on the first. "I had always believed air and water," she explains. "I moved with everything I had. She stayed

Hospital Hell

In conversation with a number of Vermont representatives, I am holding a Congressional Town Meeting Tuesday, December 15, so here we can explore the expenditures, accountability and governance in Fletcher Allen Health Care. I want all Vermonters to come and make their voices heard on this extremely important issue.

Congressional Town Meeting
December 15, 2008
First Congress-
ional Town Meeting
at 10:00am
Fletcher Allen
Health Care
222-0440

The severe problems surrounding the scandal at Fletcher Allen warrant the largest financial audit in the history of Vermont. A project that was approved by the state for an expenditure of \$172 million has turned into a project that could cost \$334 million — a difference of more than 100% million that was deliberately hidden from state representatives and the public they are supposed to serve.

Let's be clear. As a result of mounting health-care costs, when one of thousands of Vermonters are admitted to a hospital, every dollar awarded to the cover up will come from the health-care expenditures and taxpayers of Vermont — which is all of us.

And, there are serious differences of opinion as to how health-care dollars should be spent. It is simply wrong that not a single member of the hospital Board is responsible to the public. Although Vermonters will pay for the dramatic cost of the "Reconstruction Project" and a hospital budget of \$200 million a year, the public has no formal representation on the hospital Board. Rather, the Board is appointed — four members appear — by the University of Vermont, Fitcher Allen, the Medical Center Hospital of Vermont and University Health Care.

We should be very clear in understanding that none of the wrongdoing and accounting failures are the fault of the highly competent doctors at FAPHC, the dedicated nurses in the hard-working staff. Many of these people have given much of their lives to the hospital, and we all appreciate the excellent work they have done. Tragically, they — like all the citizens of Vermont — have been betrayed by the wrongdoing of those who run the hospital.

Given the significance of Fletcher Allen in the delivery of health care in Vermont, the public has a right to ask hard questions and demand that the Board of Trustees provide serious answers.

This year a five-way Vermonters between Fletcher Allen Health Care is the largest health-care provider in the state — with a budget exceeding \$200 million. By way of comparison, Fletcher Allen budget is equal to more than 30 percent of the entire budget of the State of Vermont. Fletcher Allen consumes approximately 25 percent of the health-care dollars spent in Vermont. Further, a massive waste of \$172 million of the state's money — more than \$700 million — is in the billions from the federal and state governments in Medicare and Medicaid payments.

Given the significance of Fletcher Allen in the delivery of health care in Vermont, the public has a right to ask hard questions and demand that the Board of Trustees provide serious answers. While serious individuals clearly have made all of these for the last years, there are enormous accountability problems in Fletcher Allen — the state's largest health-care provider and provider of billions of dollars in health care payments, not being spent behind closed doors by people who have little to no accountability to the citizens of Vermont.

This issue faces a major health-care

In my view, just changing the representation and the membership of the Board of Trustees will not be enough. Instead, we need to look at establishing a Board that governs in a way that is the most representative of our citizens and the people of Vermont. Only by considering fundamental governance changes in the Board, and taking a hard look at the regulatory process in the future that allowed this fraud to take place, will Fletcher Allen become more accountable, transparent and open.

We are entering the fiscal year and we are still. If we open up the Fletcher Allen Board and make it more representative to the public, I believe that the hospital will be better governed and more inclined to address the accountability gap and use of health care in Vermont.

While there are steps of the vision that I hold, I would like to hear your opinion as to how the scandal at Fletcher Allen should be addressed and how, together, we can use this opportunity to make a good health care facility better. It is time to begin the public dialogue about what's wrong and how to fix it. □

RENAISSANCE WOMAN? Lynn Ingersoll hasn't needed her Italian style upbringing, the Burlington artist turns her "Renaissance Catholic" imagery into artworks that are masterful in size and emotional depth. She frequently uses the "starry-starry" device of Italian Renaissance art, and finds inspiration in her dreams and emotions. Ingersoll hosts a reception this Friday for her artwork at the Amy Tarant Gallery in the Flynn Center.

VERMONT LIFE

In a new picture book by Brenda Cherry, Hannah and Mary Marlow, 10 Vermont teens describe days away on hilltops and meadows. They're also more picky, except the only hard work from Rose Hill Road West State's Cherry Marlow, where 14 other kids' books also describe her Northwest Kingdom days. Kids live on her version of green, the family may have endured "some months of winter" but they also loved along off the farm road. Westcott by Randolph and Mary Marlow, winner of the 2001 Governor's Award for a Children's Biography of America's Complete History, includes the current year. The book also includes family photos from the farm girls' family of the author and the Marlow — who stay and great local farm on these locations just in time for holiday shopping.

FOOD FOR THOUGHT:

last month hundreds of families received a one-week reprieve from the **Chittenden Emergency Food Shelf**.

for many it was their only source of food.

last year's food drive raised over **12,776 pounds of food!**
We want to top this record!

HERE COMES THE SUN

It's rolling here from the Bronx, New York, just warm and beamed by heavy machinery. **Sunny Weather** add a dash of euphoria to their noisy groove. The singer-led band now incorporate live-band guitar, keyboards and vocal hooks, introducing the sound with a deep, complex melody. Drugs, debauchery and decadence, Sunny Weather are hot good times, beginning this Thursday at Harpuz.

EMPLOYMENT SECTION

"Working as a recruiter in today's challenging employment market requires innovation, creativity and flexibility. When I recognized that Seven Days was available everywhere, I knew that I needed to give it a try. I have found it to be a great resource to hire qualified, professional candidates in my area and at a cost that is much more economical than the day's. I need to think of Seven Days' employment section as my new tools chest but given the increasing number of classified ads I must think the cat is out of the bag!"
